

## Father, Mother, Sister, Brother, All Should Use Parisian Sage.

**Prevents Baldness—Banishes  
Dandruff—Stops Falling  
Hair and Itching Scalp**

PARISIAN SAGE is a family hair tonic and dressing that will do much to keep an every home. The man who uses PARISIAN SAGE will never grow bald. Baldness is caused by dandruff germs which dig down into the roots of the hair, destroy its nourishment and cause the root to die and the hair to fall and thin out.

PARISIAN SAGE is a scientific hair remedy that not only kills the dandruff germs, but gives the hair just the same nourishment that nature gives it.

PARISIAN SAGE first kills the germs; then it nourishes the weakened hair root and causes a growth of healthy hair.

This same nourishment PARISIAN SAGE causes the hair to grow vigorous which means that the hair

becomes full of life and lustre, and grows radiant and beautiful.

Thousands are wasting time, losing hair and growing bald because they are using superficial tonics. While they may clean the scalp, and make it feel refreshed, they do not get to the root of the hair where the real destroyer of hair, the pernicious dandruff germ, thrives and multiplies.

Try PARISIAN SAGE for all hair trouble; it means death to the germs; life to the hair. It is pleasant to use and so harmless that it can be used by every member of the family from the oldest to the little tot.

## NEW STRIKE ON LUCKY GOLD

Fine Ore Showing in 64-foot Drift at 103 Feet Depth; Also Fine Values Found in the Southern Bell Property

Recently mention was made of the operations of three mining companies in the Kelvin district, J. D. Ferree of this city being the directing head of their activities and the companies being the Kelvin Tunnel Site and Mining Co. The companies maintain offices at 420 National Bank of Arizona building where Mr. Ferree has just received samples of ore from a new strike that promises much, and which samples he will be glad to show to any one interested.

The strike in question is in a drift, at 64 feet on the Lucky Gold property. The ore samples \$3.10 to \$3.20 in gold and 6 per cent copper, per ton. Mr. Ferree says it is the intention to sink on these veins to the 200 foot level. They now have a good showing of water at the depth of 103 feet. Mr. Ferree also says that on the Southern Bell property the main shaft is now down 200 feet and into water level showing 1400 gallons per day. Copper ore has been cut in this property showing 16 per cent with gold and silver values of 2.50 per ton.

## PENNSYLVANIA OUT IN FORCE

**First Social Meeting of the  
Society Was a Flattering  
One; State Field Day  
Will Be Held on April  
Fourth**

The Pennsylvania society of Arizona held its first festive demonstration last night in the board of trade room, about 250 natives of the Keystone state and their families being in attendance. There was music and speaking and the serving of refreshments by the ladies, consisting of sandwiches, coffee, relishes, cakes, Dutch doughnuts and fried cakes, hickory nuts, chestnuts and black walnuts. Before leaving every Pennsylvanian present had signed the roll and paid his annual dues of 50 cents. It was also decided to hold a Pennsylvania field day on Thursday April 4 at some place not yet definitely fixed, but probably Eastlake park. The feature of that occasion is to be a baseball game in which those coming from the western counties will cooperate for the organization of a Pittsburgh team while those from the eastern counties will be represented by an especially organized Philadelphia team.

Last night's gathering was called to order by J. R. Bess, president of the society, who at once appointed Frank Metzger as toast master and turned the meeting over to him. Mr. Metzger unfurled a big state map and calling off the counties in alphabetical order, had the former residents of each assembled in a party by themselves, when all were introduced. That proceeding gave everybody a chance to get his eye on former neighbors whom he had not seen for years. The guests were provided with little souvenir note books and during the evening they exchanged addresses and names as a means of hastening the work of getting acquainted. The plan worked beautifully. On each note book was inscribed, "We love our Pennsylvania but Oh Arizona."

Then the prepared program was launched in. Mrs. Mendenhall gave a vocal solo; Mr. Vogt sang a solo, accompanied by Mrs. Vogt; Miss Eichenbower sang a solo; Mr. McDowell gave an Irish impersonation; Mr. O'Donnell a reading; Mr. Pike told civil war reminiscences of Pennsylvania; and then President Reed was called upon. He spoke entertainingly and in the course of his remarks read a letter from Governor J. K. Tener of Pennsylvania in response to an invitation to be present. It was met with applause and the governor was made an honorary member. Mr. Corrigan spoke briefly and an entertaining talk was made by Mr. Strickler, a Pennsylvania visitor in Phoenix.

The field day matter was brought up next on a motion by J. A. Moore and settled as stated.

Dr. R. M. Tafel made an interesting speech and it was during this period that the refreshments were served.

Altogether the first meeting was all that had been hoped for it although there are yet hundreds of Pennsylvanians in the county who have not affiliated and it is hoped they will all be out on field day. Quite a representation of Tempe and Mesa City people were present.

Florida Everglades  
Matter.**

[Associated Press Dispatch]  
WASHINGTON, Feb. 7.—A thorough investigation of the charges that government reports of the Florida Everglades lands were suppressed by officials of the department of agriculture at the instance of land speculators, was determined today by the democratic members of the house committee on expenditures for the department of agriculture. A statement was issued that Solicitor McCarney with the approval of Secretary Wilson, said the charges are untrue and the effort to broaden the secretary of agriculture will fail. The statement said Chief Engineer Elliott of the irrigation division, and his assistant, Mr. McCarney, were dismissed because they had certified and presented false accounts.
